

USE LESS WATER. SAVE MORE MONEY.

Simple changes at home mean less water wasted and more money in your pocket. Here are some ways to make every drop count.

Water conservation starts inside.

Daily Habits

Turn off the faucet while brushing your teeth

Be mindful of running water while washing dishes by hand

Only run full loads of laundry and in the dishwasher

Install low-flow water fixtures

Replace old appliances with energy-efficient models

Replace old toilets with modern low-flow models; check for leaks

Around the House

Step outside to conserve more water.

Water-Wise Landscaping

Use xeriscaping techniques and drought-tolerant plants

Let grass grow longer to encourage deeper rooting

Upgrade your sprinkler system with smart controllers and technology

Watering Rules

Required by the District

No outdoor watering between 10 a.m. and 6 p.m.

Repair sprinkler systems within 10 days of identifying a leak

Water no more than 2 days a week based on the last number of your street address during Stage 1 drought restrictions.

Do not irrigate during rain or high winds

Do not water driveways or sidewalks

Do not allow water to pool in gutters, streets, or alleys

Use a hose with a shut-off nozzle when washing cars

Use a broom instead of a hose to clean sidewalks, patios, and driveways
